Medical Consent

I agree to any emergency medical treatment to be given as considered necessary by the medical authorities, if I cannot be contacted. *NB* The medical profession takes the view that a parent's consent to medical treatment cannot be delegated. Medical consent forms have no legal status and a doctor will treat in the best interests of the child. However, we have found that medical staff find this type of general consent as helpful.

If the church arranges transport for your child to an outside event, I will need to complete a separate transport consent form.

Photography

We would like to be able to take photographs and videos of the youth and children in their activities. These may be used to promote the groups, advertise events or even for fun and artistic youth projects. All photos and videos are stored securely on a computer and not available for public access. However, some may be used on our website, social media, church magazine and advertising.

If you would not like your child to be photographed or videoed please put 'X' here.

Data consent
